APPEAL

ON BEHALF OF FAMINE-STRICKEN IRELAND.

WE THE UNDERSIGNED, MEMBERS OF THE Relief Committee, appeal to the ever-charitable citizens of Vancouver Island of all creeds and nationalities, but especially to the sons and daughters of poor, suffering Ireland.
It is quite unnecessary to draw the sad picture of the sufferings that are in store during this season for a great portion of that unfortunate and helpless Island. A cry of sympathy has risen in every land and all agree that private charity alone can partially alleviate Ireland's imminent calamities.
His Lordship Bishop Brondel, at Christmas noon service, made the initial start towards relief. A collection-box will be placed in the Church during the services until the 31st of January, the amount of which will be at once forwarded to the Archbishop of Dublin, who, as it is well known, distributes such gifts impartially to all who are in need.
In order, however, to extend to all the opportunity of saving from starvation their own unfortunate countrymen or fellowmen, we, members of the Relief Committee, will collect or receive subscriptions during the month of January and remit the amount through the same channel.

THE RAILWAY ERA.

Skeptics, croakers and growlers are invited to take "heart of grace" from the announcement of the fact that the Federal Government have consented to the transfer of the railway contracts to ONDERDONK & Co. Every preliminary is arranged. The whole thing is settled. The vaults of the Bank of Montreal hold $1,500,000 in gold, deposited by the contractors as security for the *bonafide* fulfilment of the work within the specified time. Such plant and supplies as cannot be manufactured or grown here are being purchased and shipped from eastern ports. The contractors with their assistants and workmen will soon be on the road, and all signs betoken an early awakening of the country from a lethargic sleep of centuries to active and bustling life. There is no longer room to doubt; and those who fancied they saw in every step in the negotiations so happily concluded fresh cause for distrust should hasten to take advantage of the new order of things which is about to begin. Be up and doing, British Columbians! There is going to be a race in which the exercise of all your energies and faculties will be required to keep ahead. Hands must be taken from pockets; shop shutters come down earlier and go up later; and no opportunity let pass to push a safe and legitimate business. There will be prizes for all who deserve them; and we want to see old friends who have manfully shouldered the burthens of the past carry off the sweepstakes of the future. Depend upon it, the change will be great, because the growth of the country consequent on the expenditure of $2,000,000 a year, the purchase and shipment of goods, the absorption of labor, the consumption of native products; the encouragement of manufactures, and the increase of the public revenue must cause every vein of trade and industry to pulsate with new life. This has been the effect of railway construction in Oregon, in California, throughout the United States and Canada—everywhere, in fact, where supply and demand have been connected by railways. Why should the effect be otherwise here?

The anxiety of the Dominion Government to award the contracts to a firm of which British Columbians are members has been favorably commented upon. That object has been accomplished. A pioneer firm of Columbian merchants are deeply interested in the railway contracts. That is a wise and eminently proper arrangement. As British Columbians are largely interested in the country the firm are in the best position to encourage and foster local productions of every kind; and we are solemnly assured that they intend to do it. How favorably does the course of the Dominion Government in their encouragement of British Columbians contrast with the policy of the Government of the Province in respect of drydock construction. With them local talent, capital and labor are at a discount; hence we find them reaching out all over creation to induce "men from abroad" to take an important contract that should properly be done by home hands. It is a pity that our rulers do not imitate the example of their betters at Ottawa.

THE SHORTEST ROUTE TO SKAGET.

The people of Chilliwhack district are to be commended for their energy. They have sent out at their own expense a party to clear the trail to Skaget river—the distance being only from 40 to 45 miles. This route, if the representations made respecting it be correct, will certainly capture the bulk of the traffic. The tedious Seattle route, with its rushing river, its cañon, its Jacob's ladder, its Sourdough, and Vernon mountains, which stand like grim sentinels to guard the treasures of the new El Dorado, cannot compete with the route *via* Victoria city and Fraser River. Until a road has been built on the American side from the head of navigation on Skaget River to the diggings miners with packs on their backs can climb Jacob's Ladder and get along somehow; but how are they to be fed? Mules cannot climb a ladder or scale mountains which are so precipitous that birds can scarcely find rest for the soles of their feet. And the Seattle people are boasting of the superiority of their route and are attracting miners there who can only wait for the weather to moderate and the trail to open before proceeding on their way. Now, in view of the fact that the Skaget mines can be reached early in the season only from the British side of the line, and can only be supplied at any season from this side, an effort should be made to bring the superior claims of our route to the notice of the incoming miners. A steamboat trip of nine or ten hours will convey a miner to Chilliwhack, and land travel of 40 miles will place him in the heart of the diggings. This fact should be published far and wide. It would be stupid for Columbians to hide their electric light under a bushel when the gloom is rendered more apparent by the farthing dip of the Seattleites.

LYNCH LAW IN ONTARIO.

Civilization has received a shock. One of the most horrible occurrence that has ever been flashed across the wires will be found amongst our exclusives to-day. In reading it one almost imagines that the *locale* of the atrocity is in the heart of lawless Texas instead of in peaceful Ontario. A family of suspected incendiaries, held for examination and out on bail, have been massacred in cold blood by a vigilance committee and their bodies committed to the flames of their burning homestead. Had the terrible act occurred in Texas, where Judges administer the law under constant fear of assassination should their decisions or rulings not be in consonance with public opinion, it would not have excited "special wonder." But in Ontario—peaceful, lawabiding, Christian Ontario—with church spires pointing heavenward in every township, where every surrounding influence is good, and where justice is dealt out with a fearless hand—that such a frightful affair should have taken place is enough to make men ask whether the world is not relapsing again into a state of savagery? Had the DONNELLYS been guilty they would surely have been punished by the law; and there can be absolutely no excuse urged for the administration of Lynch law in any part of Canada. Every man connected with the murder should be run down and, if found guilty, hanged.

THE QUEEN'S SPEECH.

We present the full text of the Queen's speech delivered at the opening of Parliament on Thursday. It touches on the main topics of policy that have agitated the public mind of Great Britain and promises substantial relief to Ireland. The scene at the opening must have been brilliant. A persual of the document will be found interesting.

SOMEBODY'S BLUNDERING.

Why the Insult was Offered to the President—The story of Col. De Ahna—All the Wrong not on His Side—Left to Starve Three Thousand Miles from Home.

WASHINGTON, Jan. 4.—The case of Col. De. Ahna, aside from the gross and inexcusable insult offered to the President during the New Year's reception at the White House has some points which justly excite sympathy in his favor. The fact that he could thus conduct himself toward the President on the public occasion, and escape without arrest, or any other punishment further than ejectment from the house, will illustrate the simplicity of our form of government.

The case of Col. De Ahna, up to the time that he became desperate because of the terrible condition to which he and a large family were reduced through want, was one that called for general sympathy. It deserves attention because it shows how at times the Government finds itself unauthorized to do what it would seem that any Government worthy of the name should have the power to do—namely; make such provision, if need be, for the return of its officers when relieved at distant ports as will save them from being thrown upon the communities where they are left as paupers. This happened to Col. De Ahna, but through no fault of his own, and while he was acting in good faith under the orders he had from the Government.

His history in brief is this; He was appointed during a recess of Congress as collector of Alaska, and it was deemed best for the public interest that he should proceed to his post without delay. He was allowed to draw about $1,200 in advance, and was furnished Government transportation to San Francisco. There his troubles began. Instead of being sent off in the revenue cutter, as he had been given to expect he would be, he was obliged to wait for some time on expense for the regular steamer. He was also obliged to purchase a modest household equipment at Victoria and ship it to Sitka. After reaching his post he entered upon the discharge of his duties with great earnestness, and was doing most excellent service for the Government in many ways outside of his particular office. At the end of a few weeks being at Astoria for his family and goods, there came a letter containing a telegram from Washington notifying him that, as the Senate had failed to confirm him, his services were no longer required. Here he was, about 4000 miles from Washington, with no money, and actually so reduced that he could not even telegraph for instructions, or report his condition until he had deposited his watch as surety for the Government paying for the telegram he sought to send. He was given no help, and at length was on the point of starving when a foreigner, hearing his name, sought him out to ask him if he was connected with a German family of the same name abroad. This turned out to be true, and the gentleman making the inquiry for the good-will he bore the friends abroad, paid Col. De Ahna's fare back to San Francisco. There, with his wife and several small children, he was again left to destitution and actual want. No appeals to Washington could be legally heeded—a fact both disgraceful and mortifying to write of a great Government—and no effort was made to help him.

All this time there was nothing against his record. He had acted strictly in accordance with orders, and had served well through his brief term. He was a good soldier for the Union, and had better claims upon the Government than those who were simply answering to his telegrams that there was no law by which he could be assisted. Finally, through the kindness of some Pacific Railroad men, he was given two emigrant tickets, which were good for the family to Omaha; and with them he was given a letter to all conductors and railway officials stating his former position and the facts of his hard case. Thus at length he reached Washington. It was in warm weather. All the thick clothes and underclothing of the family were in the baggage—seven trunks. On arriving at the Capital, the railroadmen here held this baggage for freight charges. Being entirely out of money, he could not pay this, and the trunks were held on through the winter, and the whole family went through a cold winter here with nothing but summer clothing. The Treasury would pay nothing on account of salary because of the advanced money. Friends and even strangers who heard of the case loaned money to keep this faithful officer and all his family from starving.

A bill for his relief passed the House of Congress, and then went over to the extra session. At length he secured an appropriation of $1,500. The Treasury at once took all that was due on settling his account, and his debts for food took all the rest. He tried to obtain a modest appointment. He was promised and promised, and put off a hundred times. And, because he persisted, as any parent would, who day after day went home to a suffering family, he was finally voted a bore by those who should have made it their duty and their pleasure to help one so situated.

Then, driven to desperation, he did what was altogether excuseable, though most indiscreet in one seeking office at the hands of those in power, he began to publicly denounce those whom he felt, and had ground for feeling too, were not paying the attention to his case which it deserved. Even then, a great Government might have smoothed down its ruffled dignity long enough to give a man who was starving on account of his efforts to serve it, some place that would at least furnish his family food. But, after this, the more he tried, the harsher he was treated. There could be no unbendings of such a mighty Government for a man who had denounced its prominent men. As politics run, of course he had no right to expect anything; but the equities were all on his side for all that.

Of late he has been in despair. He could not get away from the city. He had seen his wife and children set out into the street, and stripped of the little left them from the baggage, which was recovered after nearly a year, moth-eaten, mildewed, and almost entirely destroyed. He has been denied admission by nearly all officials. In this condition, and in the frame of mind that was the natural result of it, he went with the crowd on New-Years Day into the White House, and insulted the President. It was a gross offence, and one that deserves the severest condemnation. But,, in spite of it, it would still be a gracious thing to give a man who has suffered as he has a place that would enable him to do all he has asked for—namely, give his family bread.

THE QUEEN'S SPEECH.

FULL TEXT---PARLIAMENTARY PROCEEDINGS.

ENGLISH IRON TRADE BRISK.

[Exclusive Dispatch to The Colonist.]

LONDON, Feb. 5.—The weather to-day is fine. The Royal procession to the Parliament House took place in accordance with the programme. The Queen arrixed in the House of Lords at ten minutes past two. Upon receiving a copy of the speech from Lord Cairns, Lord High Chancellor, Her Majesty handed it back to him and Lord Cairns then read it, the ceremony lasting fifteen minutes. The speech was as follows:

My Lords and Gentlemen:

It is with much satisfaction that I again resort to the advice and assistance of my Parliament. My relations with all powers continue friendly. The course of events since the prorogation of Parliament has tended to furnish additional security to the maintenance of peace in Europe on the principles laid down by the treaty of Berlin. Much, however, still remains to be done to repair the disorder with which the late war has affected many parts of the Turkish Empire. A convention for the suppression of the slave trade has been concluded between my Government and that of the Sultan. At the close of your last session I expressed the hope that the treaty of Gundamuk had happily terminated the war of Afghanistan. In conformity with its provisions my envoy with his retinue was honorably received and entertained by the Ameer at Cabul. While engaged, however, in the exercise of his duty he and those connected with the embassy were treacherously attacked by overwhelming numbers and after a most heroic defence were almost all massacred. An outrage so intolerable called for condign chastisement, and my troops which, pursuant to stipulations of the treaty, either had withdrawn or were withdrawing from the territories governed by the Ameer, were ordered to retrace their steps. The skill exhibited in the rapid march upon Cabul and in the advance upon other lines of action reflects the highest credit upon officers and men of my British and native forces, whose bravery has shone with its wonted lustre in every collision with the enemy. The abdication of the Ameer and the unsettled condition of the country renders the recall of my troops impossible for the present. But the principle on which my Government has hitherto acted remains unchanged, and while determined to make the frontiers of my Indian empire strong I desire to be on friendly terms alike with those who may rule in Afghanistan, and with the people of that country. My anticipations as to an early establishment of peace in South Africa have been fulfilled. The captured position of the Zulu King and the breaking up of the military organization on which his dynasty was based have relieved my possessions in that part of the world from dangers which would seriously impede their advancement and consolidation. In Basutoland a native outbreak of considerable importance has been effectually quelled by my colonial forces, while Transvaal has been freed from the depredations of a powerful chief, who, having successfully resisted the former government of the country, had persistently rejected our attempts at conciliation. I have reason to hope that the time is now approaching when an important advance may be made towards the establishment of a union or confederation under which the powers of self-government already enjoyed by the inhabitants of Cape Colony may be extended to my subjects in other parts of South Africa. Papers on these and other matters will be forthwith laid before you.

Gentlemen of the House of Commons—I have directed estimates of this year to be prepared and laid before you without delay.

My Lords and Gentlemen:—The Commission, which at the close of last session I informed you I had issued to inquire into the causes of agricultural depression throughout the United Kingdom, is pursuing its labors. In the meantime the serious deficiency in the usual crops in some parts of Ireland has rendered necessary special precautions on the part of my government to guard against the calamities with which these districts are threatened. With this view, they have called upon the authorities charged with the duty of administering relief to make ample preparations for the distribution of food and fuel, should such a step become necessary; and they have also stipulated the employment of labor by advances on terms more liberal than those prescribed by existing law. I feel assured that you will give your sanction to the course which has been adopted where it may have exceeded the power entrusted by Parliament to the Executive of the Government. A proposal will be submitted to you for providing the funds required for these exceptional advances on security of the property administered by the Church Temporalities Commissioners. The Queen then referred to certain measures to be considered, and concluded—"I trust that the blessing of Almighty God will attend and direct your labors."

Lords Beaconsfield and Salisbury were not present at the opening of Parliament. The Queen's reception by the crowd on the street was very enthusiastic. There was the usual search for Guy Fawkes in the cellars of the House of Commons this morning.

LONDON, Feb. 5—In the House of Commons Northcote gave notice that he would move to-morrow the adoption of a bill sanctioning the measures of relief for Ireland already taken and for further relief.

Alexander M. Sullivan, Home Rule member for Louth, gave notice that he would to-morrow move for leave to introduce a bill for the better protection of life and property in Ireland by suspending the serving of writs of ejectment for the non-payment of rent.

LONDON, Feb. 5—At a meeting of the Dublin Mansion House Committee yesterday Lord Mayor Gray stated that at the rate at which they had been expending it the fund on hand would not last more than four weeks.

LONDON, Feb. 4—American demand for iron is causing unprecedented activity in Great Britain. Four vessels, loaded with over 5000 tons of pig iron and rails, sailed from Bath for New York to-day, and 13 are at present chartered to load iron for American ports.

Owing to the death of his sister Gladstone will not attend the earlier part of the session of Parliament unless public business requires his presence.

INDIA.

BOMBAY, Feb. 4—Subscriptions were opened here to-day in aid of Irish distress. One native banking firm subscribed £1000. The committee consists of both Europeans and natives.

LAHORE, Feb. 5—Six leading Kohistan Chiefs have collected a force to oppose the British nominee for the governorship of that district.

McArthur, H. Nelson, J. Adler and son, Speirs, A. Blaney, J. McAlister, C. Todd, Jackson, S. Leiser, A. B. Gray, W. Humphreys, E. Neufelder, Eberts, Thos. Millar, P. McKee, Thos. McLay, J. Hunt will leave again for Nanaimo on Tuesday morning next at half-past 7 o'clock.

A NECESSARY IMPROVEMENT. — One of the most necessary improvements in the city is the construction of a new sidewalk from the foot of Fort street along Wharf to the Custom House. Since the erection of that building merchants of Wharf street and the public at large have frequently been compelled to wade through slush and mud in order to reach the steps which lead up to the main entrance of the structure. No part of Wharf street is more generally used than its south end and it is in the interest of the public that the attention of the City Council is now directed to the necessity of a continuation of Wharf street sidewalk.

FINANCE.—A meeting of the Corporation Finance Committee was held yesterday afternoon, when a number of accounts were audited and ordered paid.

DISMISSED.—The charge of cruelty preferred at San Francisco by the seamen of the ship Alex. McNeil, recently at this port, against Capt. Sproul has been dismissed.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, Feb. 6.

A. Rogers vs. J. Devereaux—This was an action to recover $80, one month's pay and board, in lieu of notice, plaintiff having been discharged without notice from the steamer Sir James Douglas on Jan. 2d last. The defendant denied having engaged the plaintiff as he was already employed when he (the defendant) took command of the steamer. He discharged the plaintiff in consequence of instructions received from the Agent of Marine and Fisheries, by whom he (the plaintiff) had previously been paid.

The case was adjourned till Tuesday next. Messrs. Drake & Jackson for the plaintiff.

Mason vs. Lorimer—This was an action to recover $37.50 balance due for bricks supplied defendant in 1876. Judgment for plaintiff with costs.

S. Tod vs. J. Sinclair—An action to recover $50 due for purchase of one-half interest in the sloop White Foam; also $50 damages on account of the defendant having used the sloop contrary to customs regulations, by reason of which she was seized and sold by the Customs authorities and the plaintiff lost his one-half interest in the sloop.

The defendant produced a receipt, dated August 25th, 1879, for $50, being the amount paid by him for his half interest in the sloop. His Honor therefore struck out this item from the plaint and the case was adjourned until Tuesday next. Mr. Theo. Davie for plaintiff; Mr. J. R. Hett for defendant.

Enterprise Gold and Silver Mining Company Limited vs. Lindsay—(action for calls)—Mr. Drake for the plaintiffs and Mr. Alex. E. B. Davie for the defendant.

On February 3rd Mr. W. Pollard was sworn:—I am secretary to the plaintiffs and produce the register of the shareholders; the defendant is the owner of 133 shares; his residence is Barkerville; he held these shares previous to the 1st October last, and has paid four or five previous calls to my knowledge; the sixth call was levied on the 1st October last by resolution of the directors made payable forthwith and delinquent on the 1st November, 1879; upwards of thirty days had elapsed between the call on the 1st October and the previous call; I gave notice to defendant by posting a letter prepaid and addressed A. Lindsay, Esq., Barkerville; I produce a copy of the notice, also articles of association and by-laws; I have had no reply and the defendant owes the plaintiffs $26.60, the amount of the call, 27 cents for interest and 50 cents costs of advertising, making in all $27.37; I also produce certificate of incorporation under seal of the Registrar General of Joint Stock Companies, (1869).

Cross-examined—The entry in the register of shareholders was made at the time the assessments respectively were made, and I point out the defendant's name in the register. The directors of the Company at the time the sixth assessment was made were Jas. Burns, R. P. Rithet, I. B. Mason, R. Lipsett and S. A. Spencer; Burns, Rithet and Lipsett were appointed at a general meeting of the shareholders on the 6th February, 1879; I. B. Mason was appointed on the 6th February 1879, in lieu of Samuel Walker, by a resolution at a Directors' meeting; S. A. Spencer was appointed in lieu of Neufelder deceased. At the general meeting five were elected; the 6th call was levied at a director's meeting, Burns, Rithet and Spencer being present; three form a quorum; it was decided at a meeting in my presence that three should form a quorum; there was no resolution, as far as I know, on the matter; I can't say what directors were present at the time the conclusion was arrived at; shortly after I became secretary I mentioned the subject and thought it was important if all the directors were present; it was decided that three should be sufficient; I enter all resolutions and not without resolution; the meetings were held at my office; I don't remember where the discussion took place; the point was raised and decided; it might have been outside on the sidewalk and not in my office; I can't say whether the discussion was with each separately or with all together; it was so decided;—no time other than that in the resolutions when the case should be paid; there was no place of payment appointed by the resolution; the call was made to meet liabilities at the time; the then indebtedness I could not tell now; perhaps $9000; there were 50,000 shares at $5 each; defendant's shares were partly original and partly increased; the capital stock of the shareholders was increased 20th of September, 1878; the defendant was not a shareholder; he became holder of his shares October 21th, 1878.

Re-examined by Mr. Drake—At the first meeting four out of five directors were present, one was dead; at the second meeting all surviving directors were present; at the first meeting 3rd of March, 1879, Burns, Rithet, Lipsitt and Nason were present; I cannot say at which meeting the quorum was fixed at three; since defendant became a shareholder he appears to have paid all calls except the sixth; my notice was posted on the 2nd October, 1879, and the defendant would get it on the 10th October in due course; his payment would be due on the 10th November and no proceedings were taken till the 4th December.

The case was then adjourned until Friday, the 6th February, for further evidence on the application of the plaintiffs.

Yesterday (Friday) the case was withdrawn by the plaintiffs, and similar actions against G. Truman, W. L. Jones, W. Forrest and J. Bibby were also withdrawn.

REDUCED CABLE RATES.—The San Francisco *Commercial News* says:—The General Superintendent of the Pacific Division of the Western Union Telegraph Company has received instructions that, owing to the opening for business of the new French cable, the price of cablegrams to all parts of continental Europe will be reduced to 62½ cents per word after February 1st. For the present, however, no reduction will be made to Great Britain and Ireland, the new cable company not being prepared for competition in those quarters.

I. O. G. T.—The following officers of Hope of the Navy Lodge were installed on Tuesday by A. T. Clanton, D. G. W. Chief Templar:—G. Gibbs, W. C. T.; Sister B. Hicken, W. V. T.; Wm. Phelps, W. S.; W. H. Wheeler, W. T. S.; E. R. Phelps, W. T.; W. McArthur, W. C.; G. Ford, W. M.; W. Grimshaw, W.T.G.; C. Moe, W. O. G.; Sister M. Rowbottom, W. R. H. S.; Sister S. Hobbs, W. L H S.; M. Bailey, W. A. S.; Sister M. Bond, W. D. M.

THE steamer Maude arrived from Nanaimo yesterday afternoon with the following passengers: Miss Westgrath, Miss McGill, Rev. Everton, Doran, J. Spratt, J. C. Monk, R. Wake, E. Phillips, J. Clarke, Cutham, J. Pitt, Westgarth.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, Feb. 6.

The three Chinamen convicted of being in possession of fowls stolen from Capt. Starr's premises, were brought up for sentence.

His Honor said that he had carefully looked into the evidence and there was no doubt that the prisoners were guilty of the offence with which they were charged. He had delayed passing sentence in order that he might see if the Canadian law bearing on the case was the same as the English and he found that there was no material difference. The defence set up for one of the prisoners that he had just come down from Nanaimo and had gone into the house not knowing that the fowls were there, fell through, because when the police approached the house they found the window darkened and the door fastened by a padlock on the outside. Thus every precaution had been taken to create the impression that the house was uninhabited and empty. Fortunately the noise made by the fowls persuaded the police that such was not the case. His Honor believed the three prisoners to be equally guilty, and sentenced them each to three months' imprisonment with hard labor.

COFFEE BY STEAM.—Keeping pace with this progressive age Mr. Hy. Saunders of Johnson street has just completed the erection of a handy little steam engine for grinding coffee. The engine is supplied with steam generated rapidly from an upright boiler which is fitted with 74 iron tubes. A very light pressure is sufficient to drive the machinery and as the consumption of fuel is exceedingly small a considerable saving of labor and time will be effected in filling orders. The machinery was erected by Mr. R. Foster, jr., in a workmanlike and very creditable manner.

THEATRE ROYAL TO-NIGHT.—The performance by amateurs at Theatre Royal for the benefit of the Irish Relief and the Indigent Home Funds will come off to-night. In the preparations nothing has been omitted to insure a successful presentation of the two pieces. A dress rehearsal took place last evening and the proficiency of the players was quite marked. We do not intend to anticipate the performance by describing the rehearsal; and all we shall say now is that those who may attend to-night will pass the evening most agreeably.

NANAIMO—*Free Press:*—A rumor that the Indians of Gabriola Island found the body of Capt. Wake is discredited....A. The *Exeter Gazette* notices an extraordinary find of family jewels, which has recently been made in connection with the family of the late Sir Bourchier Wrey, Bart., of Tavistock Court, and of Ilfracombe. Soon after the aged baronet died, in November last, a sale was held at his Ilfracombe residence of all his furniture. For some days the furniture was open to the public, and several tradesmen from Bideford, Illfracombe, and Barnstable were among those who inspected it. Among the articles which were being examined was an old and well made writing-desk. This underwent a minute inspection, somebody remarking that probably it contained a secret drawer. However, nothing was found but later in the day the thought again occurred to Mr. Allen, housedecorator, of Barnstable, that probably a complete examination had not been made of the desk, and he mentioned his thought to the person in charge. The two men went to the desk, and Mr. Allen handled it for some time in various parts, using his knife as well, until suddenly a spring flew open, and four secret drawers were exposed to the view. The first three which were opened were empty, but in the fourth Mr. Allen found a glistening array of diamonds. They comprised two ear drops and a broach. He at once took charge of them, and they were subsequently forwarded to the executor of the late Sir Bourchier Wrey, This gentleman at once saw that they were family jewels, and were, therefore, the property of the Rev. Sir Henry Wrey, Bart., of Tavistock, to whom he handed them. The jewels are said to be worth several hundreds of pounds.

The number of deserters from the army advertised in the *Police Gazette* during the year 1879 was 5,840. This total is much below the average of previous year the number of deserters in 1878 being 8,399 and considerable deduction should be made for absentees who return or are arrested.

ST. CHARLES HALL.—The bar has been moved again into the hall and the business will in future be conducted as at first. A concert every evening. *1w

CANADA'S DISGRACE.

A TEXAN MODE OF REVENGE.

A Whole Family Murdered in Cold Blood.

CANADA.

LUCAN, Ont., Feb. 4.—For some time past incendiary fires and other misdemeanors have been of frequent occurrence in this neighborhood, and a man named Donnelly was suspected. As a consequence an intense feeling has existed against him and his family throughout the township. A vigilance committee was formed some time ago by settlers as a means of protection from these outrages, other precautionary measures having failed to bring about a remedy. The last fire was on the Ryder farm on Thursday the 15th of January, and old Donnelly and his wife were arrested at the time on suspicion of being implicated in the burning. Their examination was still pending and was to have been closed to-day; but the morning light displayed a ghastly spectacle of the charred remains of the inmates of the Donnelly homestead, after having been horribly hacked with a knife. It appears that about twenty men were engaged in the bloody work. A boy named Conners, belonging to the village, was staying in the house over-night. When the attack was made he crept under a bed without being discovered. When the murders were committed the house was fired and the gang decamped. The boy then emerged from his hiding place, started for the village and informed the authorities. The persons murdered are James and Judy Donnelly, Thomas, their youngest son, and Bridget, a neice. At about the same time (midnight) another party called at the residence of William Donnelly, three miles distant from his father's house, and awoke him. His brother John being in the house arose and went to the door, when two shots from a revolver were fired, killing him. The bodies of the murdered family were almost burned to a cinder. The old man and girl are lying close together in the northwest corner of the house. The old man's skull was broken. Mrs. Donnelly is lying in one of the middle rooms and shows evidence of being beaten to death. The son lies in the front of the house. It would appear from large clots of blood on the outside of the door that he was killed outside and thrown into the burning building. There is as yet no clue to the perpetrators of this wholesale murder. A jury has been summoned and an inquest will be held at once.

AFGHANISTAN.

CANDAHAR, Feb. 4—Terrible accounts reach here from without the British lines. It is reported that nearly 2000 families have been exterminated by the Ghilzais and that seven of the villages of the latter were afterwards captured by the Hazaros and every soul in them slain.

LAHORE, Feb. 3.—Mahomed Jan has established a chain of armed posts on the Turkistan and Ghuznee roads, where his officers search people passing to and from Cabul.

ENGLAND.

LONDON, Feb. 4.—Right Hon. Sir George Hamilton Seymour, a retired diplomatist, and Rev. Henry Moule, a prominent philanthropist and clergyman, and still more prominent sanitarian, and discoverer of the dry-earth system, are dead.

GERMANY.

COLOGNE, Feb. 4.—Count De St. Vallier has gone to Paris to communicate with DeFreycinette on the proposed increase of the German army.

The Cost of Living in New York.

Last summer a New York journal made the remark that a family in the city ought to set a good table on $2 per week for each member in it. The assertion caused no little comment, and was pretty generally decided as an impossibility. Miss Juliet Corson, who is a lady well known in New York, made some experiments at the time and has recently published the result. The family consisted of five persons, three refined women, the editor in charge of a daily paper and a servant. The test began in a business-like way, making an inventory of supplies, setting aside and valuing enough for a week's use. Miss Corson superintended the cooking herself. A copy was kept of the actual bills of fare for each day. The bills show that the cost of food was 58 cents a day for six persons. The following are the bills of fare for three days:—

Sunday—Breakfast: Fried scallops, fried potatoes, peaches, Vienna bread, coffee. Dinner: Roast duck, succotash, stewed tomatoes, baked potatoes, bread, muskmelon, tea. Supper: Biscuit, peaches, sugar, tea.

Wednesday—Breakfast: Blue fish, fried egg plant, fried potatoes, French rolls, coffee. Lunch: Graham bread, rusks, peaches and cream, tea. Dinner: Roast chicken, baked potatoes, corn, stewed okra, bread, muskmelon, tea.

Saturday—Breakfast: Beefsteak, corn and fried potatoes, Vienna rolls, coffee. Lunch: Rolls, pilaff, cookies, peaches, tea. Dinner: Broiled bluefish, lamb chops, rice and mushrooms, corn, potatoes, bread, peaches, tea.

SHORE & Co., the family grocers, corner Douglas and Cormorant streets, have removed to the brick premises of Mrs. Hodges, corner of Douglas and Pandora streets. A large stock of choice goods always on hand. *

In the Whole History of Medicine

No preparation has ever performed such marvelous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering and often saving life. The protection it affords by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. For sale by all dealers. 1dw

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had *Boschee's German Syrup* been taken a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, *Boschee's German Syrup* has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

THERETO PERTAINING.

EMORY is pleasantly situated on the right bank of the Fraser River, at the unobstructed Head of Navigation, the Terminus and Initial Point of Construction of the Canada Pacific Railway in British Columbia.

EMORY is the natural and inevitable entrepôt and outlet for the Mineral, Agricultural, Pastoral and other Resources of the vast interior, and as the Main Station on this side of the Rocky Mountains with the consequent Round-Houses, Machine Shops, Work Shops and Workman's Dwellings, it cannot fail to become one of the most important and prosperous Cities on the PACIFIC SLOPE, while the large influx of Population and the sudden growth of industry incidental to vigorous Railway Construction must insure its becoming the Great Centre of the Commerce and Carrying Trade of British Columbia.

The CITY OF EMORY has been admirably laid out, nearly all the Lots having a Double Frontage, and the Main Streets carrying a uniform width of Sixty-Six Feet throughout.

The circumstance of the Railway Contractors being the principal owners of the Townsite will be a sufficient guarantee for the interests of Emory being well cared for.

There can be no Rival to this the only available Townsite, all the surrounding land being locked up in the Government Railway Reservation.

Four Swift and Commodious Steamers will be placed on the river next season, connecting at New Westminster with the splendid and fast steamers "Princess Louise," "W.G. Hunt" & "Enterprise," thus establishing DAILY STEAMBOAT COMMUNICATION and enabling Passengers, Mails and Freight to reach the Terminus of the Canada Pacific Railway in fourteen hours from Victoria, running time.

Capt. Irving desires us to state that he is now preparing for the immediate construction of WHARF and WAREHOUSE accommodation at the City of Emory to meet the requirements of the immense traffic certain to concentrate there next season.

Mr. Charles Morton is perfecting arrangements and will establish the

EMORY HOUSE

Early next Spring as a first-class Hotel, to meet the requirements of Trade consequent upon the commencement of vigorous Railyay Construction.

Several large Commercial Firms are preparing to establish themselves at Emory early in the coming season.

MAPS of the City of Emory have been carefully prepared and are now ready for FREE distribution, and every facility will be given intending purchasers for obtaining the fullest information.

TERMS—One-half of the purchase-money to be paid down in cash; the balance in sixty days by approved endorsed notes, bearing interest at the rate of 8 per cent. per annum

DEEDS, giving Indefeasible Title, will be delivered to the purchasers within ten days after the sale, a conveyance fee of $2 50 being charged.

COUNCIL CHAMBERS, Victoria, 8th January, 1879.

To the Worshipful the Mayor and City Councillors:—

GENTLEMEN,—In presenting statements of receipts and expenditure, cash assets and liabilities, and ledger balance sheet, I have to direct your attention in particular to the expenditure of 1879. This expenditure, embracing 13 months, includes outstanding accounts for December, 1878, and arrears of previous months, amounting in all to $7,622 37. The Corporation books now contain all known liabilities to 31st December, 1879, therefore, the present Statement shows 13 months' general expenditure and some arrears.

The excess of liabilities as shown on 31st December, 1879, in the Statement of cash assets and liabilities being $3,138 25 only, and the excess of payments during the year $7,622 37, it follows that your affairs are in a sound condition, as without such payments there would be a balance in favor of 1879 of $4,484 16.

As the Cash Statement does not show the actual expenditure on many important accounts to the close of the year the following entries, taken from the transfers to close, will supply that deficiency, *i. e.*,—

Street Repairs	$17,136 36
City Police	9,087 47
Charges	5,152 64
Street Lighting, 14 months	3,846 32
Legal expenses	610 00
Water Works	16,222 13
	$52,954 92

The difference between the actual expenditure as above and the cash expenditure as shown in the Statement is $10,975 83, which will account for the bulk of the liabilities of the Corporation at this date (31st of December, 1879).

I have the honor to be, Gentlemen,
Yours, most obediently,
J. C. BALES, Auditor.
